The High-Level Working Group « recommend that AU, SADC, UNSC, OIF and EU work together during the next few days to create a joint situation room to monitor the situation in [#DRC](#) and respond quickly to any untoward event that will compromise the credibility of the elections »

*Disruptive Applications of Information and Communication Technology (ICT) on the Electoral Process in Africa,* which took place at the Olusegun Obasanjo Presidential Library, Abeokuta Nigeria, it was noted that the 2018 General Elections of the Democratic Republic of Congo (DRC) are scheduled to be held on Sunday, December 23, 2018. We have high hopes that the elections will be free, fair and credible. These attributes will be earned only by strict adherence to the provisions of the Constitution of DRC relevant to the general elections as well as the provisions of the relevant electoral laws.

It is our belief that the elections should be used as a unifying force to bring the people of the country together and rekindle hope for its citizens that have fled the country. We enjoin all candidates to caution their supporters against violence and voter intimidation and appeal to the incumbent to support a free, fair and credible election.

We are impelled by the dictum that "solutions to Africa's problems must be provided largely by Africans themselves" in urging all stakeholders in the election process including political parties, the candidates, the electorate and the election management body to be part of the success story of the elections. We urge the citizens to exercise their rights to vote in a peaceful and orderly manner and request the Congolese security services to respond to any public protests within the law.

We recommend that the African Union, South African Development Community (SADC), the UN Security Council (UNSC), the International Organisation of La Francophonie (OIF) and the European Union work together during the next few days to create a joint situation room to monitor the situation in DRC and respond quickly to any untoward event that will compromise the credibility of the elections. Having watched recent political developments in DRC with keen interest, we are confident the good people of DRC will not allow the doom on the December 23 elections as feared by some in the international community to pervade and break on a great country like the DRC in the African continent.

We stand by you in prayers and have high expectations of huge success of the general elections.

Translated [@coalitionlamuka](#) statement  
denouncing the serious obstacles  
orchestrated by the regime to disrupt  
[@MartinFayulu](#)'s campaign:  
[#RCD](#) [#DRC](#) [#Congo](#) [#lamuka](#)

1. During each of those stages, our candidate lifted the enthusiasm of hundreds of thousands of men and women, massive waves of people, expressing their commitment to his political project;
2. We wanted to congratulate and thank our population for its maturity, its reception, the serenity and the discipline that it showed. No violence, neither verbal nor physical occurred;
3. Such a level of mobilization from men, women and youngsters is the obvious proof of the good political will that the Common Candidate of the Opposition Martin FAYULU MADIDI symbolizes;
4. There is no room for doubts, the Common Candidate of the Opposition Martin FAYULU MADIDI and LAMUKA represent hope for the vast majority of Congolese;
5. Everywhere the Common Candidate of the Opposition went, he was mindful to the calls of despair, desolation, and revolt from a population that is martyred and miserable by the hands of a chaotic Governance;
6. Facing this despair, the Common Candidate of the Opposition Martin FAYULU MADIDI proposes to the Congolese, not only strong signals of hope for the present and the future, a coherent project of society based on rigorous governance and attentive to the social situation of the needy, but also a Marshall plan to bring back peace and security throughout the country;
7. As for the Campaign Committee that accompanies the Common Candidate of the Opposition, this perfect communion between the population and himself, is a sign to come of an indisputable victory of Martin FAYULU MADIDI on 23<sup>rd</sup> December 2018;
8. With such a level of infatuation, of mobilization, there is not one shade of doubt that the Common Candidate of the Opposition Martin FAYULU MADIDI will be the next President of the Republic, following the Presidential election on 23<sup>rd</sup> December 2018;
9. It is therefore, half way through, an excellent result despite all the shackles that politico-administrative authorities are putting in his way:
  - Refusal of flying over or landing 2 planes out of the 3 at the disposal of the Common Candidate of the Opposition;
  - The petty annoyances at the various stages in the North-Kivu, forcing the candidate to modify and delay his agenda;
  - In Kindu, authorities ensured that they would block the landing by having 3 helicopters of the DRC Armed Forces, prior to the arrival of candidate Martin FAYULU MADIDI. At Bukavu, these same authorities improvised construction work, at the Place de l'Indépendance with the same objective.

determining the physical integrity of our candidate. This is the perfect opportunity to denounce all those massive violations of the Fundamental Law and the Electoral Law.

What took place in Kindu and Lubumbashi clearly shows us that President Kabila, despite the voting machines, are going to lose the elections on 23<sup>rd</sup> December 2018, because of the massive extent of the mobilization around the candidacy of Martin FAYULU MADIDI. Not only are they creating a climate of violence and terror that could justify the cancellation of the elections, but they are also trying to prevent him from campaigning. They are trying to discourage him. At the same time, we are launching a call to our people, to not yield in front of these provocations, no matter their origin, and as democratic people, to not forbear from moving ahead with their campaigns on the Congolese territory. To conclude, we call on the Congolese people to continue their mobilization with peace and non-violence, for the now certain election of its candidate Martin FAYULU MADIDI.

Je tiens à rendre un vibrant hommage aux nouveaux martyrs tombés sous le joug de la Kabylie. Je tiens également à exprimer mes sincères condoléances aux familles des victimes. Le peuple congolais a soif d'alternance et rien ni personne ne pourra entraver sa volonté. Communiqué 🇷🇨

### Communiqué

Les 10, 11 et 12 décembre 2018, à Kindu, à Lubumbashi et à Kalemie, la police et l'armée ont tiré à bout portant et lancé des gaz lacrymogènes et de l'eau chaude sur une population pacifique venue accueillir le candidat commun à l'élection présidentielle congolaise, Martin Fayulu.

A l'heure actuelle, on a identifié au moins 5 morts. De nombreux blessés et arrestations arbitraires sont à déplorer. Cette folle répression injustifiable contre une population pacifique est intolérable.

Nous présentons nos condoléances aux familles et aux proches éprouvés et nous nous inclinons devant la mémoire de ces nouveaux martyrs de la démocratie.

Nous condamnons avec la plus grande fermeté ces violences inacceptables. Nous exhortons les Congolais à ne pas répondre aux provocations. Ne répondons pas à la violence par la violence, mais plutôt par une mobilisation toujours plus forte, pacifique, mais déterminée. C'est comme ça que nous ferons triompher la seule vraie alternance, celle portée par Martin Fayulu.

En plus de ces violences criminelles, nous déplorons que le régime Kabila, dépassé et conscient de son impopularité, fasse tout pour empêcher Martin Fayulu de battre campagne dans le pays.

Manifestement, le régime Kabila a déclaré la guerre aux électeurs, souverain primaire, mais nous ne tomberons pas dans son piège qui consiste à créer le chaos afin d'empêcher la tenue d'élections qui doivent sonner le glas de sa Présidence.

C'est dans cet élan qu'un incendie d'origine criminelle, dont le régime ne peut être que le complice, voire l'instigateur, a ravagé ce matin un dépôt de la CENI, situé juste à côté de l'Etat-major de l'armée.

Face à une telle dégradation de la situation et aux menaces qui pèsent sur le processus électoral, nous en appelons au Conseil de Sécurité des Nations Unies, à l'Union Africaine, à la SADC, à l'Union Européenne et à l'ensemble de nos partenaires bilatéraux d'intervenir au plus vite afin de :

- 1) mettre un terme à la terreur qui s'installe contre les électeurs et au candidat Martin Fayulu
- 2) permettre le rétablissement de la confiance dans le processus électoral.

Pendant que la RD Congo s'apprête à vivre un moment historique de son Histoire, il est de

Strong statement from ambassadors of  
Canada, US, UK, and Switzerland call on  
[#Kabila](#) to allow for free and fair elections.  
[#Lamuka](#)

**Statement by the Ambassadors of Canada, the United States, the  
United Kingdom, and Switzerland**

We endorse, out of deep concern, the statement by the spokesperson for the Special Representative of the Secretary-General in the Democratic Republic of the Congo, published on December 12, 2018.

We regret the succession of incidents that impede the smooth running of the electoral campaign and affect the ongoing process, including the loss of lives. We also regret the fire that destroyed the main warehouse of CENI in Kinshasa.

We call on the DRC authorities to maintain and intensify efforts, throughout the electoral process, towards a climate conducive to the free expression of opinions and the respect of human rights and fundamental freedoms.

We also call on all stakeholders to participate peacefully and constructively in the electoral process to contribute to the holding of credible, transparent, free and peaceful elections on December 23, 2018, particularly by avoiding language that may incite violence.

We urge all parties to show restraint and respect for one another during the last days leading up to the elections.
